

Career Information

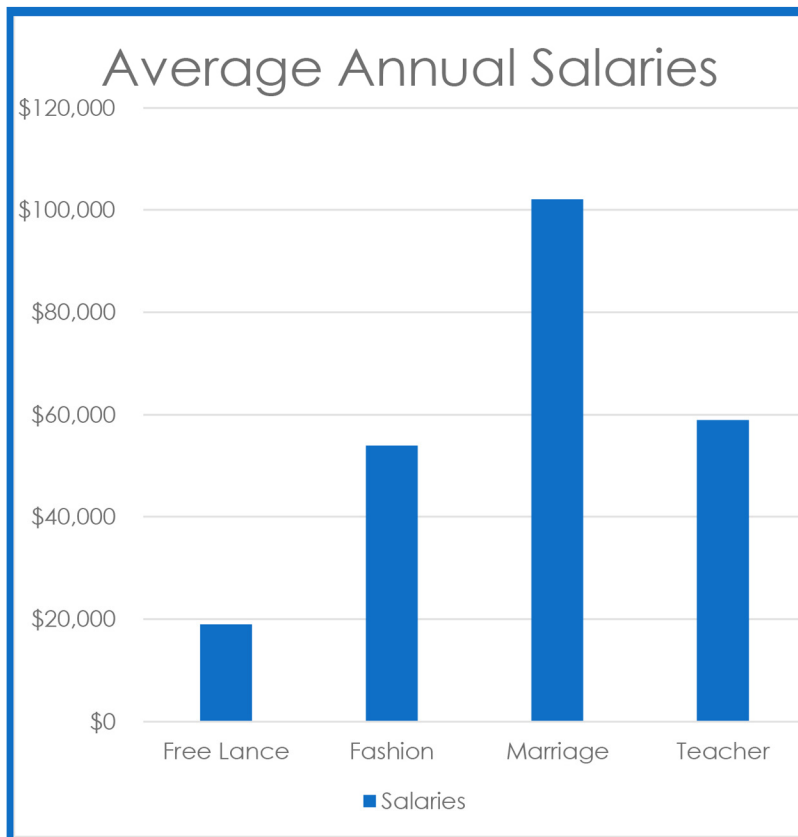

Photography

Careers

In photography there are a range of different careers for photographers to get into. These have ranges from news to marriage photographer or National Geographic to Fashion.

Out Look

The outlook for photographers can vary on what field you go into. However there are many different fields that photographers can go into. So with the actual percentage of %4 from the Bureau of Labor Statistcs, which is slower than the usual, it's still possible to be able to go into the field,

Skills/Education Required

For Photographers, they are hired for different educations and skills. This can be from selling photos to a newspaper company where they will buy it if they like it, to a teacher where they will require a college degree.

Benefits

For me, the main benefit would be the creativity that comes with photography. Flexibility with the various fields of photography is also a big benefit for me. Traveling where the work takes me would be way to go to different places.
